

Master thesis registration for Chalmers students Department of Computer Science and Engineering

The student (filled in by the student)				Date	2019.01.29	
Name	Helena Ólafsdóttir				Personal id number	940329-T165
Telephone	003457719972	Email address	helola@student.chalmers.se			
Program and enrollment year	MPSOF 2017		Thesis partner			
Number of points accredited from your civ.eng. program (≥240 hec)		240		Number of credits accredited from your master program (≥60 hec)		90
Number of credits for the project (cross)	30 hec	<input checked="" type="checkbox"/>	60 hec	<input type="checkbox"/>		
Start date	2019.01.21			Expected end date	2019.06.01	
Preliminary title	Automatically extracting information from software architecture documents					
Title continued						
I am a fee paying or scholarship student		Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	

Supervisor at the company (if applicable) (filled in by the student)

Company		Supervisor	
Telephone		email	

Suggested CSE supervisor (filled in by the student; if there has been prior contact with a supervisor)

Supervisor	Michel Chaudron	Desired	<input type="checkbox"/>	Agreed	<input checked="" type="checkbox"/>
------------	-----------------	---------	--------------------------	--------	-------------------------------------

Assigned CSE supervisor and examiner, accepted in master program:

(filled in by the master program director)

Supervisor	
------------	--

Examiner	
----------	--

Master's program	MPALG	<input type="checkbox"/>	MPES	<input type="checkbox"/>	MPSOF	<input type="checkbox"/>	MPCSN	<input type="checkbox"/>	MPIDE	<input type="checkbox"/>
Other						Course code	DATX05	<input type="checkbox"/>	DATX60	<input type="checkbox"/>
Master program director										
Signature										

Ready for master thesis registration

Master thesis coordinator			
Date		Signature	

Filled in by the Student Office at CSE

Registration for term		Course code	DATX05		DATX60	
Other						
Date		Signature Study administrator				

The approval process

The approval process starts when the student sends in the required forms and a proposal to the submission system on the master's thesis webpages (currently in Canvas). The proposals will be handled by the department at five (5) deadlines during the academic year. These dates are published on the Master Thesis webpage. The first thing that happens is that the student's results are checked through Ladok.

Then the appropriate master program director decides if the proposal fits within the program. This might lead to some revision of the proposal. It might also result in the proposal being rejected. After approval from the program director the master program will assign an examiner and a CSE supervisor for the work.

Finally the papers are signed by the master thesis coordinator and handed in to the Student Office for registration.

You might speed up the process by talking to a potential supervisor. If so, describe in your project proposal what communication you have had with him or her, and give their names in the appropriate places on the form.

Please notice that when it comes to publishing your report Chalmers applies the principle of public access.

Read more about the master thesis and the approval process in the Canvas room (official homepage for master's thesis at CSE): <https://chalmers.instructure.com/courses/232>
